Chad E. Misa

SOFTWARE ENGINEER

- A passionate and innovative front-end developer on a mission to transform ideas into captivating digital experiences. With a blend of creativity and technical prowess, I thrive in the ever-evolving landscape of web development.
- Team-player and can perform individual task with less supervision.
- Willing to learn new technologies, languages and frameworks when needed.
- I approach coding challenges with a problem-solving mindset.

EXPERIENCE

SR. SOFTWARE ENGINEER

MATCHERINO INC. – SEATTLE, WA. USA
Sept 2018 – Jan 2024

- Development of key products including tournament bracketing systems for Elimination and Swiss tournament formats.
- Development of advanced adtech tools enabling tournament sponsorships, and website whitelabels for organizations including Microsoft, the American Red Cross, CORSAIR, and AAA game publishers Supercell and Wizards of the Coast.
- Conversion to react-i18next framework for language internationalization, code conversions to Functional Components and Hooks, and codebase migrations to Next.js and TypeScript.
- Ensure created features are usable in mobile and web
- Peer review code developed by teammates.
- Debugging and bug fixing production issues.

ASSOCIATE TECHNICAL SPECIALIST
